

LE MOYNE

STEP

SCIENCE & TECHNOLOGY ENTRY PROGRAM

STEM AND LICENSED PROFESSIONS

Throughout Summer Academy, students participated in hands-on STEM activities, college and career exploration, leadership development, and academic enrichment that encouraged curiosity and critical thinking. These real-world learning experiences helped students understand how research can address community issues and inspired them to become active stewards of their environment.

BOOK CLUB

- *Haven Jabos Saves the Planet*, by Barbara Dee
- *Hatchet*, by Gary Paulsen

COLLEGE TOURS

- SUNY Oswego
- SUNY Cayuga Community College
- SUNY ESF
- Syracuse University

FIELD WORK

- Litter clean up, recording litter type and location
- Surveys, asking community members if litter impacts their sense of belonging

Summer Research Projects

1

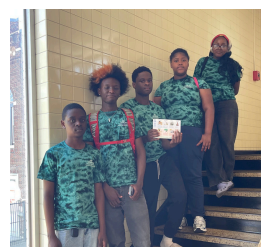

Does litter negatively impact community belonging?

- Student teams designed creative social media campaigns that highlighted the negative impacts of litter on public health, wildlife, neighborhoods, and the local environment. Their campaigns encouraged community members to take pride in their neighborhoods by properly disposing of waste, participating in clean-up efforts, and adopting sustainable habits.
- Students strengthened their research, data collection, communication, collaboration, and critical thinking skills while gaining firsthand experience in community engagement and civic responsibility.
- STEP students had the opportunity to connect their classroom learning to real-world community action by participating in Housing Visions' Northside **Community Day of Caring**. By volunteering, 25 STEP students were able to apply what they learned by helping beautify the Northside neighborhood through landscaping and cleanup efforts.

Our Services

STEP provides structured Saturday & summer programming that combines academics, enrichment, research, and college/career preparation.

College visits and field trips – Students are exposed to college campuses, STEM programs, businesses, and other educational opportunities.

Students receive tutoring and academic assistance to help them succeed in their courses.

Students receive guidance with the college search and application process, helping them understand what they need to do to become college-ready.

STEP provides hands-on activities that allow students to apply what they learn in the classroom.

SATURDAY INSTITUTE

September: 12, 19, & 26

October: 3, 17, & 24

November: 14 & 21

December: 5 & 12

Henninger Office Hours

Every Wednesday in the College & Career Center.

After School from 2pm–4pm in Room 116.

Nottingham Office Hours

STEP staff are available for scheduled 1:1 meetings in the library at Nottingham.
